○ Internet of Things
○ Web Design

Education

2018-Present Bachelor of Computer Engineering
Beykent University
Istanbul – Turkey

2020-Present Associate of Photography and Videography
Anadolu University
Istanbul – Turkey

Work Experience

Oct. 2021 – Present Havas CX Istanbul - Front-end Developer

As a front-end developer, I've worked both directly and indirectly with clients in agile-based teams around the world, such as Canada and Ireland. Developed web projects with TypeScript, React, Next.js and SASS and provided CMS integrations. Also worked as a member of the quality assurance team and ran visual, unit, and accessibility tests using tools like Axe and Jest.

Mar. 2021 – Oct. 2021. Havas CX Istanbul - Front-end Developer Intern

Worked under front-end team lead, built clone web projects, and took part in CMS integrations on Contentful and Umbraco. Gave CMS lessons to clients. Took care of already-built web sites.

Feb. 2020 – Mar. 2021. Freelance - Fullstack Developer

Worked directly with customers and both designed and built websites in the direction of the client's needs.

Projects

Netbilim

Designed and developed the website of the private teaching institute "Netbilim" and provided a CMS connection and email service using Contentful and Flask.
https://www.netbilimegitim.com/

Others

Designed and developed personal and business web pages
- Cemre Inan - https://www.cemreinan.com
- Ceyda Guvenc - https://ceydaguvenc.com
- DRN Chemicals - http://www.drnkimya.com.tr
- Crafts by Gulcin - https://www.craftsbygulcin.com

Other Experiences

Feb. 2021 Google Hash Code
Participated in the Hash Code 2021 Online Qualification Round and ranked 1335th as a team.

Feb. 2020 Google Hash Code
Participated in the Hash Code 2020 Online Qualification Round and ranked 5203rd as a team.
